SUBJECT: GHANA'S RESPONSE TO MINISTERIAL-LEVEL DEMARCHE  
REGARDING IRAN ISSUE AT UPCOMING IAEA BOARD OF GOVERNORS  
MEETING.

REF: SECSTATE 124823

Classified By: CDA GARY PERGL FOR REASONS 1.4 (b) and (d).

(C) On September 10, CDA delivered reftel talking points and information to Deputy Foreign Minister Charles Brimpong Yeboah at the MFA. While Yeboah could not definitively speak to how the GOG would approach this issue, he pointed out that the GOG generally works very closely with the U.S. on all issues. Ghana, he said, is certainly concerned about the proliferation of nuclear weapons and is "generally against what is happening in Iran." Yeboah said that he will pass the information to his superiors and the MFA will also reach out to its representatives at the UN and the IAEA to determine steps forward.
